

Name_____

Math Power #7

In an old house lived five creatures: a goblin, a witch, a ghost, a black cat, and a bat. They each made funny noises: one screamed, one hummed, one screeched, one whistled, and one giggled. They each lived in a separate part of the house: one in the attic, one in the chimney, one on the first floor, one on the second floor, and one in the basement. Use the clues below to find out who made what sound and where they lived.

- 1) The goblin loved living in the chimney, but did not enjoy listening to the creatures that giggled and whistled.
- 2) The ghost thought her scream was beautiful.
- 3) The cat lived on the floor right below the attic, and the bat lived on the first floor.
- 4) The creature that lived in the attic loved to hear herself hum to the bat and the goblin.
- 5) The creature that lived on the first floor did not like the creature that whistled.
